It was another busy week at LP!

Thanks to all of the students that were randomly selected to participate in the PISA assessment. We know that you didn't really want to spend a morning writing an online test, but your participation is really appreciated.

We had a great Grad Assembly/presentation from Kevin Brooks. If you, as the parent of a grad, ask them to "Just Wiggle Your Toes" and see if that sparks a conversation about making good choices.

Thanks to the students, parents and staff that attended the Dr. Lisa Surrige presentation about being successful after high school.

PLEASE HELP US! It would be very helpful if parents could try to avoid texting or calling students during class time. Texting is very convenient, but kids are really having a hard time ignoring any texts or notifications sent to them. It would be very much appreciated if families could hold off sending any texts or calling kids during our classes.

Monday to Thursday classes run:

8:55 to 11:40

12:30 to 3:15

Friday classes run:

8:55 to 10:40

[Helping Teens Manage Change](#)

The teenage years bring many changes, not only physically, but also mentally and socially. During these years, adolescents increase their ability to think abstractly and eventually make plans and set long-term goals. Each child will progress at a different rate and may have a different view of the world. As your adolescent navigates these changes parents can struggle with their changing role from the primary decision maker to more of a supportive coach.
